

BUSINESS CONTINUITY POLICY

As Biotrend Çevre ve Enerji Yatırımları A.Ş., we commit the following principles to the implementation, review and continuous improvement of Business Continuity related practices.

- Establishing and operating a planned and effective Business Continuity Management System, and ensuring its ongoing improvement through systematic reviews and updates,
- Adopting and applying a proactive, risk-based thinking approach supported by structured risk analysis within the company,
- Complying with business continuity-related legal and regulatory requirements by aligning with local legislation and applicable national and international standards,
- Conducting planned training sessions and simulation drills to ensure organizational readiness and effective response during unexpected situations,
- Performing business impact analyses to identify current and potential future threats and managing them to transform risks into opportunities or minimize their negative impacts,
- Assessing potential losses promptly and accurately in the event of emergencies, and executing rapid and effective response actions,
- Managing and maintaining up-to-date internal and external communication systems within the scope of the business continuity system,
- Procuring and sustaining the internal and external resources required for implementing the business continuity plan and ensuring their continuity and currency.
